Forward-looking statements

This report may include forward-looking statements. All statements other than statements of historical facts included in this report, including those regarding the Group's financial position, business, plans and objectives of management for future operations are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Group, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Group's present and future business strategies and the environment in which the Group will operate in the future. Many factors could cause the Group's actual results, performance or achievements to differ materially from those in the forward-looking statements. Forward-looking statements should, therefore, be construed in light of such risk factors and undue reliance should not be placed on forward-looking statements. These forward-looking statements speak only as of the date of this report. The Group expressly disclaims any obligations or undertaking, except as required by applicable law and applicable regulations to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Group's expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

Use of non-IFRS financial information

Certain parts of this report contain non-IFRS measures and ratios. We believe that these measures are useful indicators of our ability to incur and service our indebtedness and can assist certain investors, security analysts and other interested parties in evaluating us. Because all companies do not calculate these measures on a consistent basis, our presentation of these measures may not be comparable to measures under the same or similar names used by other companies. Accordingly, undue reliance should not be placed on these measures in this presentation. In particular, underlying EBITDA is not a measure of our financial performance or liquidity under IFRS and should not be considered as an alternative to (a) net income/(loss) for the period as a measure of our operating performance, (b) cash flows from operating, investing and financing activities as a measure of our ability to meet our cash needs or (c) any other measures of performance under IFRS.

Notes

Introduction

Punch Pubs Group Limited was incorporated on 26 May 2021, following which the group acquired its trading subsidiaries on 23 June 2021.

These are the fourth quarter's accounts of FY22, for the 12 week period up to 14 August 2022.

Reporting calendar

12 December 2022 – Audited Annual report and financial statements for FY22 17 February 2023 – Q1 FY23 quarterly report for the 16 weeks to 4 December 2022 12 May 2023 – Q2 FY23 quarterly report for the 12 weeks to 26 February 2023 04 August 2023 – Q3 FY23 quarterly report for the 12 weeks to 21 May 2023 27 October 2023 – Q4 FY23 quarterly report for the 12 weeks to 13 August 2023

Investor calls are planned to be held twice yearly following the release of the H1 (Q2) and full year (Q4) results.

- This has been our strongest quarter (since having issued our High Yield Bond in June last year) on an equivalent 12-week basis, delivering £23.2m of underlying EBITDA for the fourth quarter.
- For the full 52-week year underlying EBITDA amounted to £83.3m which compares positively to the £76.0m Adjusted Underlying EBITDA from the wider Punch Group (prior to Punch Pubs Group Limited being incorporated on 26 May 2021) in the year to August 2019, being the most recent full year prior to the Covid pandemic.
- The size of our Management Partnerships estate increased by 20 pubs in the quarter to 328 pubs, with a further £12.7m of capex invested into our pubs in the quarter, largely focused on our Management Partnerships estate.
- Utility costs for the year amounted to £7.3m across our Management Partnerships pub estate.
 - The majority of our gas contracts were fixed in 2021 through to November 2025.
 - All of our electricity contracts came to an end in September 2022 and we entered into a new electricity contract from the start of October which provides flexibility to acquire energy either directly on the wholesale market or under longer-dated fixed price contracts, including green energy offtake agreements.

- As part of our year end audit process, we have an external valuer (Savills (UK) Limited) undertake a red-book property valuation on 20% of our pub estate. The balance sheet reflects this latest valuation which resulted in a net downward valuation of just £3.2m at the year end (£18.5m being charged to operating profit and a £15.3m credit recognised in the revaluation reserve).
- The total net book value of properties at 14 August 2022 amounted to £895.3m which compares favourably to the full estate property valuation undertaken ahead of the High Yield Bond launch in May 2021 at £849.7m.
 - The increase in property values largely reflecting the purchase of the leased and tenanted pub estate from Youngs Pub Company in 2021 less a small number of pub acquisitions and disposals.
- We disposed of 4 pubs in the quarter generating proceeds of \pounds 3.2m.
- Liquidity remains strong with £10.0m of the revolving credit facility repaid on 30 June 2022, leaving £12.6m of cash and £40.0m of available revolving credit facilities at the quarter end.
